

Coroner's Fatality Management Satellite Broadcast

July 9, 2009
Cindy Lesinger

Purpose of Today's Broadcast

- Continue state pandemic fatality management (FM) planning
 - State Pandemic Influenza (PI) Operations Plan (Op Plan)
 - Assistant Secretary of Planning and Response (ASPR) Cooperative Agreement
- Assist with local pandemic FM planning
 - Move the FM Template into a plan

Pandemic Deaths

- 11 pandemics in last 300 years
- 4 pandemics in last 100 years

Year	US Deaths	Global Deaths
1918	675,000	50,000,000
1957	70,000	1,500,000
1968	34,000	700,000
2009	127	331

EMERGENCY PREPAREDNESS
Alabama Department of Public Health

Your Assistance Is Required

- All NPI decisions are based on the PSI category
- PSI is based on the case-fatality ratio
- We need accurate timely death information, especially early in pandemic
- Delay in accurate information could cause additional loss of life

PI Op Plan Sub-objectives B.8

- Secure process tracking to the State Department of Health
- Plan for behavioral health/grief community education that includes an expectation of death at home
- Plan for behavioral health/grief public messages to address stress management.

FM Planning Activities

- 2006 Fatality Management (FM) Workgroup created
- 2007 ASPR FM grant funds for supply caches
- 2007 FM Statewide Survey
- 2008 11 FM Conference Series
- 2008 Alabama County Commission Association (ACCA) FM Templates contract

FM Planning Activities - 2

- 2008 ASPR grant funds for supply caches
- 2008 CoronerME and laptops purchased
- 2009 ASPR PI grant funds for supply caches
- 2009 FM Toolkit created

ACCA FM Template Issues

- County FM Team
- County Capacity
- Indefinite Temporary Storage
- Alternate Transportation
- Report Daily Deaths
- Community Education on County Plan

FM Template Criteria

- EMA Director or Designee Signature
- County Commissioner Chairperson Signature
- ACCA and ADPH assume appropriate steps will be taken to incorporate the templates into the county EMA EOP
- Share plan with team members

County FM Team

- County Commissioner
- EMA
- ADPH PHA EP Team
- Law Enforcement
- Dispatch/911/PSAP
- Fire
- Coroner/Medical Examiner
- Funeral Home
- Faith-based
- EMS
- Local Hospital

County Capacity

- Must know capacity before an event to plan
- Staff and supplies
- Determine county trigger

Identify Local Options

Temporary Storage

- Cold
- Non-cold
- Local Authorities

Alternate Transportation

- Not EMS
- Not Law Enforcement
- Public works

Report Daily Deaths

- Each county must determine a report process
- In AL, ACA has agreed to CoronerME

ADPH, ACA, and CoronerME

- ADPH granted funds to ACA software and computers
- In return, ADPH is asking coroners to enter basic information
- ADPH has been granted access to basic info for emergency events
- General aggregate data, names only for deduplicating
- ADPH asked for data dump to excel & autofill features in cause & mechanism of death

Community Education on County Plan

- New PSAP/E911 procedures
- Collection Point
- Notification from street a decedent needs pick-up

FM Toolkit

- Intended for Coroners and all county FM planning team members
- Dead Body Manual
- Binder contains relevant resources
- Toe Tags
- Zip Ties
- www.adph.org/cep

Table of Contents

- Joint letter from State Health Officer and Alabama Coroner Association President
- ADPH Area Emergency Preparedness Teams – Map
- County and Municipal Fatality Management Planning Template
- Estimated Pandemic Daily Deaths by County

Table of Contents

- Hospital Mass Fatality Plan Checklist
- Coping with Stress After a Traumatic Event
- Operations, Identification and Command and Control of Mass Fatalities resulting from a Pandemic Influenza Event in U.S.
- Cultural & Religious Considerations During a Mass Fatality: A Coroner's Guide from a Public Perception

Table of Contents

- The Medical Examiner/Coroner's Guide For Contaminated Deceased Body Management
- The Provision of Family Assistance and Behavioral Health Services in the Management of Mass Fatalities Resulting from a Pandemic Influenza in U.S.
- Mass Fatality Incident Management: Guidance for Hospitals and Other Healthcare Entities

Table of Contents

- OSHA Fact Sheet - Health and Safety Recommendations for Workers Who Handle Human Remains
- Frequently Asked Questions on the Management of Cadavers
- Forms
- Fatality Management Toolkit Reference Page
- Contact Information - EMA Directors and Coroners

Intro to Dr. Higginbotham Video

- Disclaimer – He mentions DMORT but he is not referring to federal asset.

2008 ASPR Survey

- ADPH conducts an annual hospital survey
- Has your hospital completed DRAFT plans for mass fatality management?

Yes - 66 No - 16

- Does your hospital have FINALIZED WRITTEN plans?

Yes - 59 No - 26

2010 ASPR Guidance

- Facility level planning integrated into local/jurisdictional and state plans, include
 - Proper identification
 - Handling and storage of remains

Local Planning

- Has your hospital been involved with county Emergency Management Agency's (EMA) Local Emergency Planning Committee (LEPC), Emergency Preparedness (EP) Teams' PI Planning Committee, or County FM Team?
- If not, it is time
- 52 out of the 67 counties submitted a FM Template between 11/1/08-12/15/08

Hospital Planning Issues

- Do not accept bodies from outside the hospitals
- Do not plan for FM surge, plan with you county FM team
- Who in your county will pick up decedents?

Hospital Planning Issues

- Does your hospital have staff to transport decedents to a local collection point?
- Does your plan include procedures to report death to the local authorities?
- Does your plan have 3-deep back-up for staff to enter data into Alabama Incident Management System (AIMS)?
